

Alexa-2X Activation Procedure

GETTING STARTED:

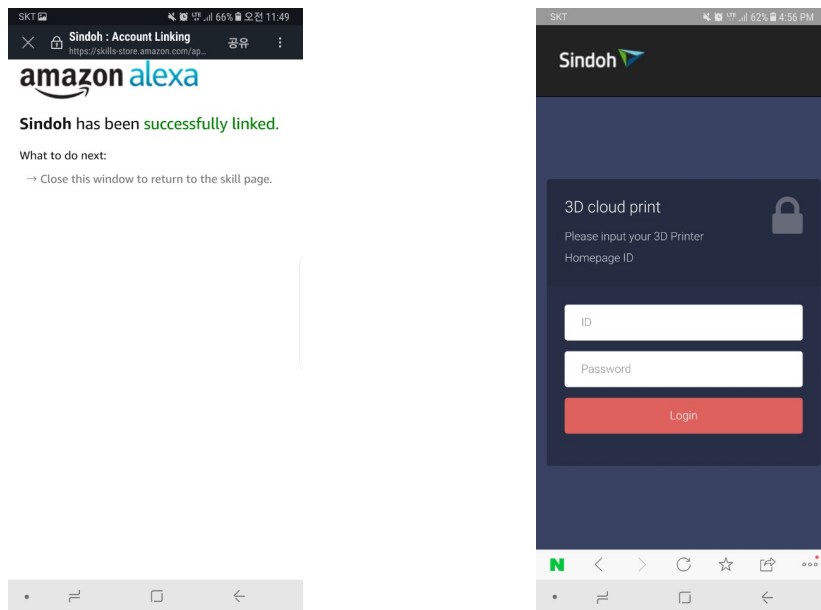

1. Update your 2X firmware to the latest version.
2. Visit <https://3dprinter.sindoh.com>, sign up and register your 2X.
3. Install Alexa App, Login with your Amazon account and download "Sindoh" from the Skills page.
4. Go to "Your Skills" - "All Skills", click "Sindoh" and enable the app.

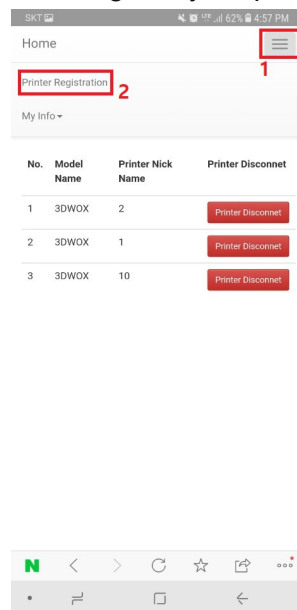

5. When asked for a Login, please input the same User ID and Password from the <https://3dprinter.sindoh.com> registration.

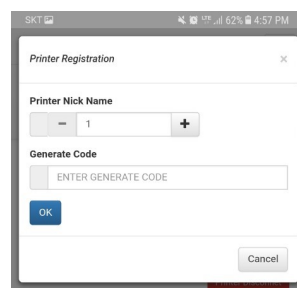

- After the account linking is complete, please connect to <https://cloud3d.sindoh.com:3443> and login using the same User ID and Password from above.

- Go to the "Menu" bar and click "Register your printer".

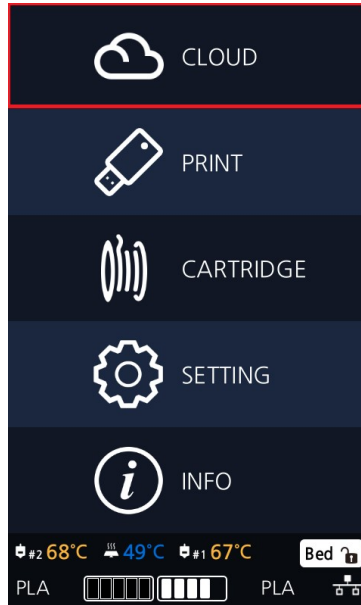

- Enter Printer Number (1~20 only) on the Printer Name, paste the code generated (instructions available next page) from the printer and press "Submit".

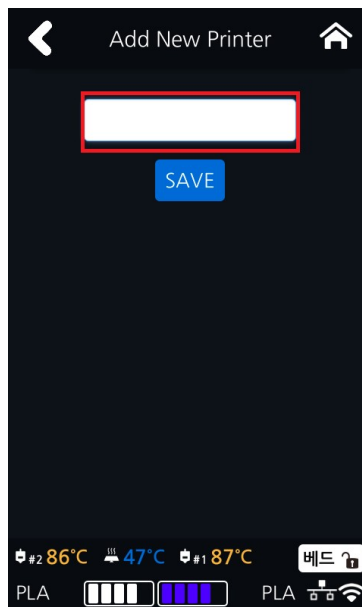

To generate code from the printer:

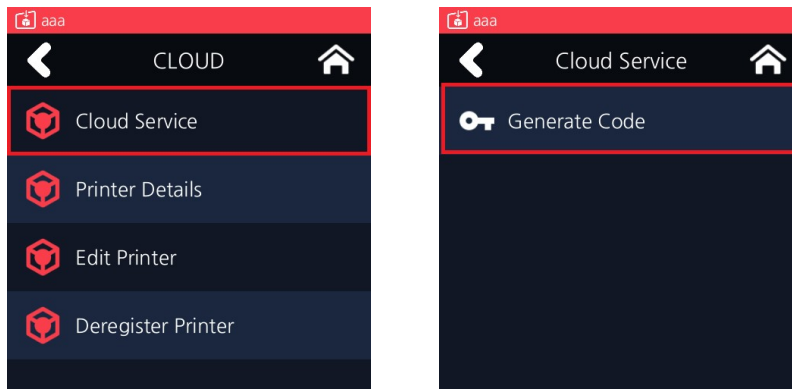

1. Click "Cloud" from the 3DWOX 2X display menu.

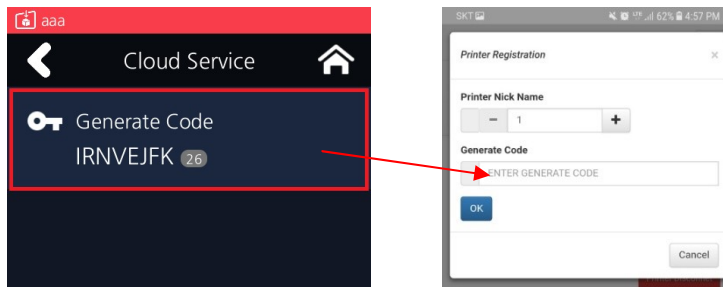

2. Enter name for your printer (any name).

3. Click “Cloud Service” and click “Generate Code”.

4. Copy and paste the code to Step 7 from above.

**To view the registered users, press “Registered Users” from “Cloud”-“Cloud Service”.
