

Description

With Sindoh skills for Alexa, you can now control your 3DWOX 2X 3D Printers with a variety of functions such as pausing, resuming and stopping the current print or checking the firmware and the status of your 3DWOX 2X.

Enjoy your advanced experience with the Alexa-connected 3DWOX 2X.

GETTING STARTED:

To use the Sindoh Skill:

1. Update your 2X firmware to the latest version.
2. Visit <https://3dprinter.sindoh.com> and join.
3. Install Alexa App, Login with your Amazon account and download "Sindoh" from the Skills page.
4. Go to "Your Skills" - "Dev Skills", click "Sindoh" and enable the app.
5. When asked for a Login, please input the same User ID and Password from the <https://3dprinter.sindoh.com> registration.
6. After the account linking is complete, please connect to <https://cloud3ddev.sindoh.com:3443> and login using the same User ID and Password from above.
7. Go to the "Menu" bar and click "Register your printer".
8. Enter Printer Number (1~20 only) on the Printer Name, paste the code generated from the printer and press "Submit".

To generate code from the printer:

1. Click "Cloud" from the 3DWOX 2X display menu.
2. Enter name for your printer (any name).
3. Click "Cloud Service" and click "Generate Code".
4. Copy and paste the code to Step 7 from above.
**To view the registered users, simply click "Registered Users" from "Cloud"- "Cloud Service".
